

## NATIONAL AIDS MEMORIAL PERSONALIZED PHOTO GIFT

Cherish a photo of your loved one's Quilt panel or engraved name  
in the Grove

Within the 10-acres of the National AIDS Memorial Grove and the 48,000 hand-stitched panels of the AIDS Memorial Quilt, are nearly 110,000 names of loved ones lost to AIDS. The mission of the National AIDS Memorial is to forever remember their names and their stories.

Through this special program of the Memorial, you can now bring the memory of a loved one into your home with a personalized photo gift of a Quilt panel or engraved name in the Grove.

These 11" x 14" high resolution, digitally produced photographed images are available matted and framed, beautifully produced on long-lasting archival-quality paper. Each are hand-crafted with a Quilt panel of your choice or the name of a loved one as it appears engraved in the Grove.

In addition to being a cherished memento for survivors, these prints make beautiful and poignant gifts for family members and others who have experienced a loss over the course of past four decades. Through the beauty and power of the Grove and the Quilt, these personalized, matted and framed photos are a way to always keep loved ones in your hearts.
